Full Stack Developer | JAVA | HTML | CSS | JavaScript | React.js | Node.js | Express.js | MongoDB | MySQL

Passionate Full Stack Developer with hands-on experience in building responsive web applications using React.js, Node.js, and MongoDB. Proficient in solving real-world problems through efficient algorithms and clean code. Actively seeking opportunities to leverage my skills in scalable application development.

Education

Sri Shakthi Institute of Engineering and Technology

B. Tech, Information Technology

2023-2027

CGPA *: 9.1

Skills

- ① Programming Languages: Java, JavaScript , HTML, CSS
 - ② Libraries & Frameworks: React.js, Node.js, Express.js, Tailwind CSS.
 - ③ Tools & Platforms: Git, GitHub, Postman, Figma.
 - ④ Problem Solving: Analytical thinker with a strong problem-solving mindset.
-

Projects

Smart Trip Organizer and Personalized Travel Experience System

(React js, Express js, Node js, MongoDB)

Smart Trip Organizer and Personalized Travel Experience System – Developed a MERN stack application enabling users to plan and manage trips with personalized destination, budget, and accommodation suggestions. Integrated secure authentication, real-time itinerary updates, and a responsive UI for seamless travel planning across devices.

Advanced Financial Insights and Budget Control Dashboard

Advanced Financial Insights and Budget Control Dashboard – Built a web-based application using HTML, CSS, JavaScript, and Spring Boot to track expenses, analyze spending patterns, and provide actionable financial insights. Implemented budget control features, interactive data visualizations, and secure backend integration for efficient personal finance management.

Certifications

React.js – Udemy 

MERN Stack Development - DevTown Bootcamp 

Node.js - DevTown Bootcamp 

Java Programming - Scalar 

Achievements

- Built and deployed end-to-end applications including *Smart Trip Organizer* and *Advanced Financial Insights Dashboard*.
- Earned credentials in React.js, MERN Stack, Node.js, and Java from Udemy, DevTown, and Scalar.
- Designed and presented web applications with creative problem-solving approaches under time constraints.
- Independently mastered modern web technologies and frameworks through online courses and bootcamps.
